Teacher training and
Professional development
Human resources development for Inclusive Education

Some questions that need to be answered:

1. Where do we want to go?
Human resources development for Inclusive Education

2. What capacity is needed at different levels to be able to get there?

3. What different modes for capacity building can be used to build this capacity?
Human resources development for Inclusive Education

4. How many parents, teachers, education managers need to be trained?

5. How long will it take to prepare our system to receive CWD and provide them with quality education?
Some issues

■ Demand and supply: how to train teachers for Inclusive Education (instead of special education)?

■ Balance between social or academic focus in education

■ Balance between in-service, pre-service, on-the-job training
Some issues

- To be able to train others you should be experienced!

- How to effectively build capacity and maintain trained personnel in education for CWD
Have a good discussion!!
