About AIMS

Empower countries and institutions to make sense of numbers through our four core areas of focus:
- Capacity-Building
- Technical Assistance
- Education for All
- Millennium Development Goals

“High-quality, timely and relevant data have the power to tell a clear and compelling story, and can facilitate solutions to questions of policy.” – Denise Lievesley, Founding Director, UIS

AIMS Strategies

- Providing advisory services and technical assistance
- Organizing sub-regional and regional workshops
- Networking regional national counterparts

UIS Asia-Pacific Regional Office

“Building Capacities for Assessment, Information, Monitoring and Statistics”

- Created in 2003 to meet technical needs of Member States, field offices and other agencies in Asia and the Pacific
- Regional Office of the UNESCO Institute for Statistics (UIS) at UNESCO Bangkok
AIMS Strategies

- Providing intellectual input
- Promoting exchanges of information and experiences
- Disseminating information and encouraging direct communication

Field Office Collaboration

- Monitoring and Evaluation Collaboration
  - Develop monitoring tools and monitoring capacity
  - Improve quality of programming and measurement of qualitative indicators
  - Provide assessment and situation analysis
  - Contributions to Regional EFA Resource Centre (activities calendar, e-newsletter, resources)
  - Data collection and analyzing disparities
  - Development and pilot testing of literacy module

Field Office Collaboration

- Coordinating EFA
  - Annual National EFA Coordinators’ Meeting
  - Informing the agenda
  - Identifying resource persons
  - Continuation through national follow-up extensions
  - Mobilizing regional / bilateral support
  - Harnessing the mass media for EFA

Field Office Collaboration

- Monitoring EFA achievements
  - National EFA Mid-Decade assessment
  - Focus on qualitative issues-monitoring, planning, and quality of results
  - Monitoring and evaluation methods training
Field Office Collaboration

- Planning for achieving EFA
- Development of EFA monitoring system
- Sub-regional network for supporting EFA evaluation
- Seminars sessions to exchange information in donor-Government cooperation for EFA
- Statistical and education planning training
