## 10th APEID International Conference

6-8 December 2006 Bangkok, Thailand

# Learning Together for Tomorrow: Education for Sustainable Development

CALL FOR PAPERS

United Nations  
Educational, Scientific and  
Cultural Organization

# Learning Together for Tomorrow: Education for Sustainable Development

The **Asia-Pacific Programme of Educational Innovation for Development (APEID)**, UNESCO Bangkok, is convening the 10th APEID International Conference in December 2006 to focus on Education for Sustainable Development. This conference, "Learning Together for Tomorrow: Education for Sustainable Development," emphasizes the importance of education in addressing critical issues facing our society today and in helping to find solutions to ensure a future that balances societal, economic, environmental and cultural needs.

Education for Sustainable Development is a dynamic and expansive undertaking that envisions a world where every person has the chance to benefit from educational opportunities and to learn lifestyles, behaviours and values that are necessary to create a sustainable future.

Learning Together for Tomorrow aims to promote the United Nations Decade of Education for Sustainable Development (DESD) from 2005 to 2014 and to strengthen UNESCO's role as the lead agency for the DESD in the Asia and Pacific region. Participants of the Conference will include representatives from governments, educational institutions, non-governmental organizations, the private sector and local communities, who will:

- Develop their understanding of the role of education in addressing sustainability in the Asia and Pacific region
- Showcase their "Education for Sustainable Development in Action" examples and models
- Engage in collaborative Education for Sustainable Development programmes and activities

## Conference Sub-themes

### Education for Sustainable Development in Education Systems

- ESD to improve the quality of basic education
- ESD curriculum reform in secondary schools
- Technical and vocational education (TVE) and ESD
- Higher education and ESD

### Essential Innovative Practices in ESD

- Curriculum development
- Innovative practices in ESD
- Teacher education and training
- Values in education

### Systemic Requirements in ESD

- Institutional reform and policy pertaining to ESD
- Research and development on ESD
- Monitoring and evaluation
- Educational partnerships and outreach
