Meeting Overview

23 November 2015
Jonghwi Park
ICT In Education/UNESCO Bangkok
In view of AEC,

Need to collectively strategize human capacity development that leads to a highly competitive and integrated region.

- providing labour-market responsive human development opportunities,
- freeing mobility of skilled workers and professionals across the region,
- innovating and diversifying deliveries of skill development programmes for the marginalized.
Meeting Objectives

- Create a better understanding of the current status of open and distance higher education in ASEAN member countries and beyond
- Provide a regional platform to deliberate on policy requirements for cross-border provision and recognition of open and distance higher education
- Facilitate continuous collaboration and partnership among numerous stakeholders.
Expected outcomes

- Verified and enhanced findings of the scoping study
- Initial deliberation on policy recommendations
- An engaged and active network of stakeholders
