Cso presentation
CSO Discussions: Points to ponder

• Inadequate participation of CSOs, which needs to be reversed.

• They can bring in-
  – a rights based lens through qualitative analysis
  – Multi stakeholder participation in the governance
  – a focus on exclusion and inequity- out of school children.
  – Looking beyond input indicators
  – Strong voice to make it forward looking and EFA agenda to go beyond SDGs

• Already existing CSO initiatives (eg. EI in 30 countries, ASPBAE in 14 countries)- need to be part of the process.

• CSOs can prepare their own report to be part of the beyond 2015 discussion in Korea.
