Group Work on Reporting: Structure of the chapter on assessing progress of EFA goals

Objective:

The purpose of the session is to discuss and get inputs from participants on how the assessment of progress towards EFA goals should be presented while preparing the report. During the session, participants will discuss not only how to present their progress, but also focus on the remaining gaps, issues and challenges in achieving the goals. The groups will come up with the overall draft structure of the chapter.

- Progress made in terms of access, participation, quality, efficiency, equity, management etc.
- Gaps, issues and challenges in terms of achieving the goals
- Remaining disparities among various social, population, economic etc., groups
- Appropriate qualitative case studies to demonstrate the efforts in improving access, participation, quality etc. of the EFA goals

Method:

The workshop participants will be divided into 6 groups for the 6 EFA goals. Each group will discuss one particular goal and how the progress of EFA should be presented. The group will have at least one facilitator.

Presentation and feedback collection for the finalization of the structure:

Each of the group will present their discussion outputs in the plenary and ask for the inputs from other groups to make the structure more meaningful and practical.
