ERI-Net Activities 2013

ERI-Net Steering Group Meeting (1-2 April 2014)
Bangkok, Thailand

Satoko Yano
Programme Specialist, UNESCO Bangkok
In 2012 ERI-Net Annual Meeting, ERI-Net members agreed on expanding the research scope beyond higher education and TVET.

In March 2013, ERI-Net expert meeting was held to finalise the research frameworks on both topics:

1. Integration of transversal/non-cognitive skills development in education policy and practice, and
2. Transition from secondary education to higher education.
2013 ERI-Net Annual Meeting

2013 ERI-Net Annual Meeting: Transition to a Better and Higher Learning (October 2013)

Shared preliminary research findings on

- Theme 1: Integration of transversal/21st century/non-cognitive skills development in education policy and practice (Phase I)
- Theme 2: Transition from secondary education to higher education

Established ERI-Net Steering Group (SG)

- Composition of the SG
  Representatives of 8 institutions from the various sub-region of the Asia-Pacific
- Roles and responsibilities of SG
  1. Selecting research topics,
  2. Approving publications under the ERI-Net, and
  3. Approving membership applications
2013 ERI-Net Annual Meeting

The 1st ERI-Net Steering Group (SG) Meeting

- Defined the roles and responsibilities of SG
- Discussed on membership matters
- Discussed on communication strategy
  - Strengthening communication and dissemination of the research findings
- Discussed on fund raising strategy
  - Supporting fund raising efforts for the extension and strengthening of ERI-Net’s work
Follow-up activities to the 2013 ERI-Net studies

Theme 1: Integration of transversal competencies in education policies and practices (Phase I)
- Country/economy case studies being prepared for online publication
- Regional synthesis report is being prepared, to be published in May 2015

Theme 2: Transition from secondary to higher education
The research examines the drivers, consequences and implications of increased international student mobility of 8 countries, which have participated in the ERI-Net research in 2011.
Thank you
