The Bhutanese education system is 108 years old this Wood female Sheep Year. It began to take shape when destiny gave to Bhutan her own son at the start of the last century.

On the fateful morning of December 17, 1907, Bhutan celebrated not only the crowning of Gongsar Ugyen Wangchuck as the first hereditary monarch, but also the birth of modern education system.

The third Druk Gyalpo, His Majesty Jigme Dorji Wangchuck started modern, western-style, English-medium schools in the 1950s.

It marked the beginning of a new era in Bhutan’s modern education history. English was adopted as the medium of instruction in schools with the drafting of an education policy in 1975.
