PISA/PISA-D for Myanmar?

(1 March 2016 @ Phnom Penh, Cambodia)

PISA/PISA-D in Myanmar Context

Aung Htike
Director
Department of Myanmar Examinations
1. **Motivation & Expected Outcomes**

- **Myanmar** is now in the stage of transition to emerge a new government.

- **Expecting** +ve changes

- ASEAN community (6 out of 10) except PLMB

- **SEA-PLM** is adopting to try out

- **International Level Test** for policy decision Making

- **Education System** can be improved
2. Challenges:

- **Accept** where we are
- **Commitment** of participating staff, teachers and students
- Try to carry out **SEA-PLM** first as MLA and EGRA are ongoing
- **Government’s prospectus** of doing so will be lobbied.
3. Potential: Current Status

- National Examination called Matriculation Exam
- Regional and Sub-regional Examinations for G-5 and G-9
- MLA and EGRA Assessments are ongoing
- SEA-PLM is in planning stage
3. Potential: Benefits

- Regional level exposure is improving by implementing them step by step.
- A step by step ladder for International Assessment is formed.
- A supporting mechanism for Policy Maker is formed.
- National Development can be enhanced by Quality Education.
Challenges: SEA-PLM

- Late participation in the SEA-PLM and less knowledge about FT
- Natural Disasters made members busy
- Some works are delayed by ICT and Internet Access
- Confidentiality of materials is another constraint
Thank you for your kind attentions!!!!!

Your Comments are welcome......
