Quality Assurance of Certification in TVET

Expert meeting
8-9 October 2015
Bureau of Personnel Competency Development, OVEC
Bangkok, Thailand

ATHIPPATAI POTANG
THE OFFICE OF VOCATIONAL EDUCATION COMMISSION (OVEC)
THAILAND
Quality Assurance System (QA) in Thailand is divided into two types:

1. **Internal Quality Assurance System**
   - Focus on Input and Process Quality Assurance which will lead to output and outcomes
   - Self Assessment Report (SAR) by colleges (every year)

2. **External Quality Assurance System**
   - Focus on output and outcome
   - By the Office for National Education Standards and Quality Assessment (ONESQA) (every 5 years)
Within TVET Thailand, the main institutions that carry out QA are:

1. Internal Quality Assurance System is carried out by Office of Vocational Education Commission or other agencies in MOE every 3 years.
2. External Quality Assurance System is carried out by the Office of National Education Standards and Quality Assessment, Prime Minister Office every 5 years.
Certification organising in Thailand

TVET certification organized by Ministry of Education, and authorized to TVET institutions which meet criteria in offering TVET
The certification process

The Certificate process is quality assured when a student complete all required learning credit hours and subjects according to the National TVET Qualifications Framework, and pass the test of every subjects at least 2.00 (out of 4.00 GDP). And every student have to pass Vocational Education Standards Test in order to receive certificate.
The expectation from UNESCO research

UNESCO research would be very useful to show and share experiences in TVET QA of certification system, learning from other country and developing network in TVET QA.
Thank you!
