Strengths of our Curriculum with respect to ESD

- Larger Reach – entire southern India
- Offers both Pre and In Service TE
- The Millenium Development Goals envisaged in ESD are taken into account
- Pre service Programmes are fully residential and integrated in nature.
Some Activities......
The PGDGC students were mainly concentrating on identification of the children who needed counseling. For this purpose, they prepared a list of children having problems based on opinions collected from teachers. With the help of observation schedules and interviewing techniques, it was concluded that some children had problems like depression, phobia and other anxiety disorders. It was also noticed that some children showed concentration problems, below average performance and also aggressive behaviour. These cases were selected for their counseling predicament. Attempts were made to establish rapport with them.
