

Cambodia discussion in group work

Problem Encounter

- High discrimination from the families
- Hidden MSM
- MSM high class
- MSM do not dare to speak openly about their sexual health with outreach/ PL/PE
- Lack of participating from community local authority
- Limited to access health care service
- MSM misunderstood about HIV/AIDS and STI

Cont

- Lack of IEC material leaflets , poster, booklet and sports
- Lack support from stakeholders

Solution tried

- Establish network in order to reach hidden MSM
- Provider capacity building to network
- Sensitivity activities about MSM issue
- Choose peer leader and peer educator to in public school and Private school in order reach youth MSM
- Raising awareness about MSM issue in public
- Provide training about MSM issue to health center and clinics
- Encourage them to sharing their problem
- Conduct training on HIV/Aids /STI in Community level
- Produce more IEC material
- Conduct training about MSM issue with stakeholders

Assistance needed if any and firm whom

- Technical support from Stakeholders
- Need cooperation from ministry of education and sport
- Participation from communities
- Collaborate with ministry of health center and clinics
- Need communities to support on RH among MSM issue
- Technical to develop IEC
