News & Events

Challenges and Opportunities of Mobile Learning
An ADBI and UNESCO workshop on Mobile Learning for Expanding Educational Opportunities examined recent developments in mobile learning, as well as its benefits and limitations. Held from 16 to 20 May in Tokyo, Japan, the regional workshop aimed at identifying suitable strategies for introducing mobile learning programmes in participating Asian and Pacific countries. http://www2.unescobkk.org/education/ict/v2_2/detail.asp?id=18643

International Conference to be Convened on Distance, Collaborative and E-Learning
The Distance, Collaborative and E-Learning Conference, to be held in Kuala Lumpur from 4 to 5 January 2006, is an opportunity for academics, practitioners and consultants involved in the study, management, development and implementation of distance, collaborative and e-learning to come together and exchange ideas and examples of best practices. http://www2.unescobkk.org/education/ict/v2_2/detail.asp?id=18614

New UNESCO-Supported Training Programme in Information Management Launched in India
A new training programme in Information Management was launched on 9 May 2005 at the University of Mysore in Bangalore. The vision is to create a learning environment, which is a fruitful blend of different learning methods, and modes, in which the participants bring to the programme their learning needs and take back knowledge and skill sets required for meeting the challenges of the Information Society. http://www2.unescobkk.org/education/ict/v2_2/detail.asp?id=18631

Programmes & Projects

Punjab Government Introduces Computer Education in State-Run Schools
In India, the Punjab Government has begun the first phase of the implementation of an Integrated Computer Technology project aimed at increasing computer literacy in upper primary state-run schools. http://www2.unescobkk.org/education/ict/v2_2/detail.asp?id=18626

Report Published on ICT in South African Secondary Schools
Considering the need for students to have access to ICT while they are at school in order to equip them with knowledge and skills to succeed in the labour market, an international survey, the Second Information Technology in Education Study (SITES), was conducted in order to evaluate the status of ICT education in schools across 26 countries. This report presents the data collected in South Africa for Phase 1 of the SITES study and evaluates the use of ICT in South Africa in the context of data from other participating countries.
