Goals of the Session

• Express Intel’s interest in collaborating with UNESCO to support transformational ICT policy development in Asia
• Examine a framework for policy development
• Explore policy resources available from Intel
Transformative ICT Policy

- Formulate a vision
- Create a long-term trajectory and 5-year plan
- Build alignment
  - Between policies and programs
  - Within agencies
  - Across agencies
- ICT as a lever for complementary, systemic changes in:
  - Teacher professional development
  - Curriculum and assessment
  - School organization
- Provide resources
- Team with partners
- Evaluate and revise
Intel Policy Development Framework

Each stage impacts all others.

Each stage happens in parallel.

Continuous process of improvement.

Develop Master Plan

Envision the Future

Implement Initiatives

Evaluate & Adapt
What do you think?

- Are these resources useful in your context?
- How can Intel and UNESCO work together in your country or region to support your policy development?
Thank you
