SchoolNet Workshop: Sharing Lessons Learned
26-28 June 2006, UNESCO, Bangkok, Thailand

Over the past three years the UNESCO SchoolNet project has engaged in training teachers in innovative ICT use and telecollaboration activities, and in the setting up of national SchoolNets. During this time the project has enabled teachers from participating schools in the Association of South-East Asian Nations (ASEAN) region to gain knowledge and experience in a range of areas. This workshop will provide an opportunity for participants in the SchoolNet project to explore and exchange the knowledge they have gained. Their experiences and the lessons they have learned will be compiled at the workshop and published in the third and final edition of the SchoolNet “Lessons Learned” series, thereby enabling teachers across the Asia-Pacific region to learn from their experiences. In addition, the participants can set up community based activities in order to share good practices and disseminate ideas around the Asia-Pacific Region in the future.

The workshop will also review and evaluate the overall achievements of the project; present and discuss the results of the Learning Circles activities and the evaluation survey; demonstrate a prototype of the regional SchoolNet; and discuss and develop strategies for ensuring the sustainability of SchoolNet activities.

Representatives from the ten ASEAN countries, namely Cambodia, Indonesia, Lao PDR, Malaysia, Myanmar, Philippines, Thailand and Viet Nam, will participate in this workshop. Participants will include Mr. Om Sethy, Director of Information and ASEAN Affairs, Ministry of Education Youth and Sports, Cambodia, Dr. Rungsun Wiboon-Uppatum, Computer Educator – Bureau of ICT, the Office of the Permanent Secretary – Ministry of Education, Thailand, and Dr. Quach Tuan Ngoc, Director, Information Centre, Ministry of Education and Training, Viet Nam, SchoolNet national coordinators and managers, participating teachers, Learning Circles coordinators, and representatives from the Thailand National Electronics and Computer Technology Centre (NECTEC).

In this regard, we are pleased to invite you and your colleagues to attend this Meeting. For further details about the UNESCO SchoolNet project, please refer to the UNESCO SchoolNet website: http://www.unescobkk.org/education/ict/schoolnet.
